Progress Update on Independent Third Party Verification

Econusantara is pleased to publish the fifteenth and most likely final biweekly update on the independent verification of allegations against three of Astra Agro Lestari's subsidiaries, PT Agro Nusa Abadi, PT Mamuang, and PT Lestari Tani Teladan.

The report was sent to key stakeholders for review on October 31st, 2023, allowing three weeks for review. Those comments have now all been received and are being reviewed in depth to be used as a reference in the development of action plan as follow up step to the recommendation. We are also pleased to confirm that a link to the report in full will be published on both the EcoNusantara and AAL websites on Monday, November 27th, 2023. The commentary received during the review period will not affect the report since the report has to be based on the data as it was received or delivered or found by EcoNusantara during the discovery phase. However, new evidence will be taken very seriously and if any gives a clear indication of a need for further exploration then we and the company undertake to implement that.
